

Flea and tick treatments (like Frontline, NexGuard or Advantix)

De-wormers and Heartworm preventatives like Safe-Guard, Heartgard, Interceptor

Vitamins for dogs and cats – age range from youth to adult to geriatric

Ehrlichiosis testing kits like 4Dx or ELISA test kit

Medication for mange (i.e. Demodex)

Antibiotics like Amoxicillin, Tetracycline or Doxycycline

Antiseptics like Chlorhexidine or Povidone Iodine

Latex or Nitrile gloves (non-sterile, usually 100/box)

Milk substitutes for kittens and puppies (powdered is lighter easier to carry)

Old towels and small blankets

Medicated shampoos

Nail clippers specifically for dogs and cats

Leashes and collars. Slip leads. Also harnesses for small dogs.

Flea combs

AAA Batteries (for surgeons headlamps – especially rechargeable)

Duct tape (we use it to mark cages so we don't mix up animals and their paperwork)

General office supplies - pens, Sharpies, copy paper, clip boards and solar calculators

Cotton Balls and Cotton rolls (1 lb non-sterile)

ZipLoc Bags (Quart and Gallon Size)

Styptic Powder

Large Plastic Tarps

Bungee Cords

Large Trash Bags

Masking Tape

Zip Ties (lighter weight and 4-5" long)

Scalpel Blades Sterile #10 100/Bx

Scalpel Blades Sterile #15 100/Bx

OptixCare Eye Lubricant
